FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

RE: Centel Telephone Companies Revisions to Tariff FCC No. 1,
Transmittal Nos. 217, 225, Order (DA 93-657), released
June 9, 1993, in CC Docket No. 93-162

Dear Ms. Caton,

Gregory Vogt, chief of the Common Carrier Bureau's Tariff Division, has requested that the Centel Telephone companies provide certain rate level information associated with the matter described above. The attached letter was delivered to Mr. Vogt today in response to his request. The Centel Telephone companies ask that the letter be made a part of the record in this matter.

Sincerely,

Richard D. Lawson

RE: Centel Telephone Companies Revisions to Tariff FCC No. 1,
Transmittal Nos. 217, 225, Order (DA 93-657), released
June 9, 1993, in CC Docket No. 93-162

Dear Mr. Vogt,

You have requested information regarding the Centel Telephone companies' rates for special access expanded interconnection. Specifically, you asked the Centel Telephone companies to analyze their special access interconnection rates to determine the average monthly cost to interconnect a DS1 circuit. You advised us to consider a model developed by Teleport to perform the analysis.

The attachment to this letter shows that the monthly interconnection costs per DS1 circuit for the Centel Telephone companies range from a high of \$32.71 in Des Plaines, Illinois, to a low of \$15.28 in the five Centel of Florida offices identified as potential collocation sites.¹

1. The rates shown and used in calculations are the rates originally filed by the Centel Telephone companies in Transmittal No. 217 on February 16, 1993, and in Transmittal No. 230 on July 16, 1993. Rates from Transmittal No. 217 do not reflect the partial suspension ordered by the Bureau in DA 93-657. Rates from Transmittal No. 230 are those proposed to replace ICBs originally filed for certain service elements.

Mr. Gregory Vogt
